Waterworks  
Hardware: Kraft  
Side Table: Plexicraft  
Trash Can: Plexicraft  
Wallcovering: Walker  
Zanger Searock Blue  
rectangular tile

## Brilliant in Blue

WHILE THIS OLD ENGLISH home's fa  ade is traditional to a T, its interior is a prismatic collection of color-infused glass vessels and other decorative accents and accessories. The home gained its multichromatic core thanks to an ongoing transformation that was the result of creative teamwork between the homeowners and designer Guillaume Gentet of D  cor by Guillaume Gentet.

The color continues in the master bedroom, which is even adorned with a vivid painting custom made by the man of the house. While the owners wanted to make a splash in their master bathroom as well, they also wanted to infuse the space with calming clarity.

A study in spa-like simplicity, Gentet washed the walls in Walker Zanger Searock Blue rectangular tile hung vertically. The Carrara marble tile flooring extends up the wall a few feet to meet the tile. A deep white soaking tub and frameless glass-enclosed shower with custom marble bench further the clean and clear aesthetic. The vanities, also in white, were custom made. Gentet even designed a stool that was part of the cabinet but comes out as a bench.

Brilliant in blue and white, this spa-worthy space is a true calm corner in this vibrant home. *Learn more about this designer at [www.guillamegentet.com](http://www.guillamegentet.com).* «
