

We Invite you to see the most luxurious kitchen and bath brands at the

ARCHITECTURAL DIGEST HOME DESIGN SHOW

MARCH 22-25, 2012

PIER 94, NEW YORK CITY • WWW.ARCHDIGESTHOMESHOW.COM

Victoria + Albert's New Edge Collection pays homage to cubic design

The Edge Collection features striking linear forms that contrast with softly contoured corners. The result is a clean, sophisticated look very much in keeping with the award-winning style that is the signature of the Victoria + Albert brand. Designed to make smart use of limited space, the generous depth of the Edge Bath provides a deep, luxurious soaking experience, while its overall footprint consumes proportionally little floor space. The tub's double ended design has plenty of room for two, while its clean profile creates an architectural centerpiece certain to add drama to any bathroom. The coordinating Edge 45 Vessel Basin is the most compact basin Victoria + Albert has produced to date. Both crafted from Victoria + Albert's signature ENGLISHCAST®, a naturally white material rich in volcanic limestone that is hand-finished by craftsmen and beautifully warm to the touch.

ThinkGlass evokes style and luxury with glass countertops

Unique glass countertops by ThinkGlass become the focal point of any kitchen! With unlimited design possibilities, they can also withstand the rigors of daily use in the kitchen. ThinkGlass countertops are cast in a single piece, so there are no cracks or weakness and at a minimum of 1.5-inches thick, the glass is as hard as stone. Glass is a non-porous surface, that means there are no crevices to harbor harmful bacteria, mold or mildew. What's best is the textured finish of the glass island tops that hides fingerprints and smudges. Add LED lights for a dramatic effect!
